Quality Starts with Me!

At Cytiva, our mission is to advance and accelerate therapeutics, enabling a world in which access to life-changing therapies transforms human health.

We are committed to delivering products, services and solutions that consistently meet **customer, applicable regulatory and quality requirements**, supported by an effective Quality Management System and clear quality objectives.

We will:

- **Do the right thing, the right way, every time**
- **Maintain and advance the effectiveness and compliance of our Quality Management System**
- **Apply risk-based thinking and data-driven decisions**
- **Continually improve through learning, problem solving, and innovation**
- **Take personal ownership for quality in everything we do**

Together**, we operate with integrity**, **build trust, and enable our customers' success** by helping deliver life-changing therapies, diagnostics, and medical devices around the world.

Every associate. Every process. All the time.
