

Statement

Regarding: Phthalates in Sepax™ C-Pro and Sefia™ S-2000 single use kits and accessories

Background

Due to its hazardous properties, the use of some of the Phthalates has been limited or is being limited in the EU to protect people's health and the environment. Phthalates such as DEHP, BBP, DBP and DIBP are listed in the Candidate List of substances of very high concern (SVHCs).

Statement

It is hereby stated that to the best of our knowledge and in conjunction with certification from our raw material suppliers, any phthalates present in any raw material used to manufacture the products listed below will be below 0.1% in concentration. This is compliant with REACH and other similar environmental legislations. Phthalates are not intentionally added or introduced during manufacture of these products.

If any of Cytiva products contain Phthalates listed on the candidate list, specific substance information can be downloaded for Cytiva articles on <https://www.cytivalifesciences.com/> under the related document section on the relevant product page.
