eQualification: your digital qualification experience

Four good reasons to digitize your qualification documents now.

1. Contribute to sustainability

eQualification eliminates shipping and paper waste. You contribute to sustainability by reducing CO₂ emissions by an estimated 100 000 kg per year.

2. Improve security

With eQualification, you have the benefit of increased accuracy without the risk of information loss. Avoid the challenge of updating documents with handwritten changes. Maintain data and documentation integrity with GDP, GAMP5, and ALCOA+ compliance standards.

3. Acquire flexibility

eQualification allows you to:

- Select flexible qualification offerings including physical or electronic, which help you meet your process and budget needs.
- Eliminate the storage of paper documentation with electronic storage.
- Follow the execution live or, for even more flexibility, remotely.

4. Save time

With eQualification your digital qualification binder is made available to you instantly as soon as your content is ready. Reviewing, approving, and sharing documents is easier and faster in this digital format compared to paper binders. Your final qualification reports include hyperlinks for improved navigation during your audits.

How does eQualification work?

Transition from conventional binder to eQualification

1

Your Qualification service content is created and sent to you for review

2

You approve content by signing it digitally and Cytiva engineer is scheduled to execute

3

Efficient execution of IQ/OQ, RQ, or CCP by Cytiva Field Service Engineer

4

After your post-execution approval you can download the complete report in PDF format

Additional benefits

eQualification is available for Installation & Operational Qualification (IQ/OQ), requalification (RQ), and Change Control Procedure (CCP).

The Cytiva eQualification solution is validated to 21 CFR Part 11 requirements and as per Cytiva Quality Management System Process for Computer System Validation (CSV) for non-product software.

You can access the full audit trail.

Your final report includes all appendixes and attachments in one document.
