

On Site Service Health & Safety Declaration Form

Service Work Order #:	
------------------------------	--

For mutual protection and safety of Cytiva service personnel and our customers, equipment and work areas must be clean and free of any hazardous contaminants before a Service Engineer starts working. To avoid delays in the servicing of your equipment, please complete this checklist and present it to the Service Engineer upon arrival. Equipment and/or work areas not sufficiently cleaned, accessible and safe for an engineer may lead to delays in servicing the equipment and could be subject to additional charges. **Knowledge of any additional hazards present at your site during Cytiva service is critical, therefore please advise.**

Yes	No	Please review the actions below and answer "Yes" or "No". Provide explanation for any "No" answers in box below.	
		Instrument has been cleaned of hazardous substances. Rinse all tubing or piping with deionized water (consider all flow paths, including those not used regularly), wipe down scanner surfaces, or otherwise make sure removal of any dangerous residue. Make sure the area around the instrument is clean. If radioactive material has been used, perform a wipe test or other suitable survey.	
		Adequate space and clearance are provided to allow safe access for instrument service, repair or installation. In some cases, this may require customer to move equipment from normal operating location prior to Cytiva arrival.	
		Consumables, such as columns or gels, have been removed or isolated from the instrument and from any area that may impede access to the instrument.	
		All buffer / waste vessels are labeled. Excess containers have been removed from the area to provide access.	
Provide explanation for any "No" answers here:			
Equipment type / Product No:		Serial No:	
Has this instrument been serviced by non-Cytiva personnel before?			Yes
Has this instrument been serviced by non-Cytiva personnel before?			No
Please provide an overview of site-specific hazards that Cytiva associates may be exposed to at your site while performing services. (e.g., Lab Biosafety Level, Cold room, Cleanroom, ATEX/ IECEx Hazardous Classified location, hazardous chemicals, other running processes etc.)			
I hereby confirm that the instrument specified in this work order has been cleaned to remove any hazardous substances and that the work area has been made safe and accessible.
