System label

Note: The specific data shown on this system label is only an example. Actual data is specific for each individual system and may vary from system to system.

Manufacturing date

Manufacturing year and month are determined by the serial number on the system label. The serial number has the format YMMSSSSS and depicts the manufacturing year and month as follows.

Character	Meaning
Y	The last digit of the manufacturing year
MM	The manufacturing month + 60
SSSSS	Serial production number

Example: A product with serial number YMM = 364 is manufactured in April 2013. For information regarding shelf life please contact your local GE representative.

Additional system label

This label is added next to the system label on the product.

Label	Meaning
	Eurasian Conformity mark: the single conformity mark indicates that the product is approved for circulation on the markets of the member states of the Eurasian Customs Union.
