

Change control notification service

Keep up-to-speed when changes are made to your BioProcess single-use, hardware, and software products

Cytiva's business is committed to a Quality Management System that ensures established processes meet the challenges of change.

Our web-based Change Control Notification (CCN) service for BioProcess™ single-use, hardware, and software products (refer to list on page) ensures that you are notified about changes that could potentially impact your product or process. All BioProcess chromatography resins are also covered by CCN.

The CCN service allows email notification when a new CCN is published and provides history of all previously published CCNs for subscribed product(s).

The CCN service is available for free by subscription at the Regulatory Support website: [cytiva.com/rsf](https://www.cytiva.com/rsf)

Single-use products

ReadyToProcess™

ReadyToProcess bioprocessing columns, ÄKTA™ ready flow kits and gradient section, ÄKTA readyflux™ flow kits, ReadyToProcess hollow-fiber cartridges, ReadyToProcess normal-flow filter capsule assemblies, and ReadyCircuit™ assemblies

Xcellerex™

XDR bioreactor bags, XDM mixing bags, and XDA accessories

WAVE™

Cellbag™ bioreactor bags, M*Bag mixing bags, tube kits, sensors, and check valves

Filtration

Hollow-fiber cartridges and ULTA™ normal-flow filters

BioProcess hardware and software

BioProcess systems

ÄKTAprocess™, ÄKTApilot™, ÄKTA flux, ÄKTA oligopilot, ÄKTA ready, ÄKTA readyflux, OligoPilot™ 400, UniFlux™, Xcellerex XDR bioreactor systems and vessels, Xcellerex XDM and XDUO mixing systems, and ReadyToProcess WAVE 25 bioreactor

BioProcess columns

AxiChrom™, BPG Chromaflow™, and FineLINE™

System software

FlexFactory™ automation and UNICORN™
