

Re. Cytiva's recertification process 2021

Dear Valued Customer,

Thank you for your interest in Cytiva. Hereby we confirm that a recertification process for Cytiva's 9001:2015 certificate is ongoing by the Intertek Certification GmbH. Due to the COVID 19 pandemic situation and the travel restrictions the recertification process for Cytiva 9001:2015 (2020-0045061 Rev 2) is delayed. After the remote audits are reviewed positively by Intertek the new certificate for Cytiva will be issued with an extension of 6 Month. For more information, please see attached letter from Intertek.

If any questions remain that are not covered within this document, please let us know and we will do our best to answer those (regulatorysupport@cytiva.com).

Sincerely,

DocuSigned by:

Certification DIN EN ISO 9001:2015 (2020-0045061 Rev 2)

Dear Mrs Rodgers,

hereby we confirm that your company currently is in a recertification process conducted by the Intertek Certification GmbH.

Due to the COVID 19 pandemic situation and the travel restrictions, some audits has been splitted into remote- and onsite audit parts in accordance with the IAF Rules. Onsite has been carried out and the procedure for them is now under the technical and certification authority process. Remote audits has been carried out and the following onsite audits are planned:

Amersham, Cardiff, Logan, Westbrough, Shrewsbury

After the remote audits are reviewed positively the new certificate with an extension of 6 Month will be printed. With the positive reviewed onsite audits, the certificate will be adjusted with regular 3 year validity.

Yours sincerely

Phil Vogt Intertek
Lead Auditor

Intertek Certification GmbH
