

# Shelf-Life Statement

## Regarding: Bioprocess Single-Use Consumables and Filtration Products

The shelf-life of a product states how long the product can be stored in the original packaging according to the manufacturer's recommendations. Bioprocess single-use consumables and filtration products are to be stored at ambient temperature and away from direct sunlight. Cytiva does not support using single-use consumables or filtration products past their expiry date.

The expiry date and date of manufacture are stated on the release certificates for the following products. Certificates are available for download by production lot at [www.cytiva.com/certificates](http://www.cytiva.com/certificates).
