

Add cell therapy manufacturing – flexibly

The 5 components of a FlexFactory™ platform address key pain points

1. Equipment

Scale up or out with a closed, automated processing line for end-to-end cell therapy production – with the flexibility to add 3rd party equipment.

Scalability
Flexibility

Time
Costs

2. Project team

Enjoy a dedicated project team to help keep your project on time and on budget. We'll coordinate ordering, site preparation, deliveries, and installations.

Readiness

3. Training

Prepare your team for success with over 10 full days of training to strengthen the skills they'll need to work in cGMP environments.

Seamless
traceability

4. Digital automation

Enhance traceability with connected instruments, electronic batch records, automatic data capture, and inventory management.

Compliance

5. Qualification and documentation packages

Meet global regulatory requirements with support from our experienced team, who will build your essential commissioning and qualification documents.
